No spicing, except extreme salt, little other flavor. The drinks were disappointing, I asked for mine without ice, and when they brought it... back still had some ice in it. The server simply forgot to put in order for one of our appetizers. Sauces were sweet sick, citris miso had no miso flavor, just sugar and salt. When my husband asked for a steak knife to cut his meat, he was told they didn't have any, the butter knife was ok. After cutting and hacking, he was able to get meat into digestible pieces. We wouldn't go back. More If you are interested in a fine dining experience without clogged claims, Bistro Checkers is your place. But it's not a secret, so don't forget the reservation! The hand is the most prompt, well-informed, friendly, kind and kind person in the city. The last time we dined there, accompanied by a mundane and special family member, every question of ours was approached without hesitantly, from wine selection to ingredients in specific dishes. Even vegetarian in the party was aptly provided for - a wide variety of menu, from small plates to entries to undeniable dessert features. That day, the checkers staff even made accommodation for the service dog! If you like to support small businesses, appreciate the finer elements of culinary delights and are excited about being treated as royalties in a place as comfortable as your own home, give Checkers Bistro a try. You won't be disappointed!
